

TEARDROP LTE

Personal Emergency Response System (PERS)

AVAILABLE
IN MULTIPLE
COLORS

24/7 Monitoring

The hard fact is, one in three people over age 65 fall every year. Let the professionals at our local monitoring center be there for your peace of mind.

This attractive and affordable device provides emergency help at the push of a button. It allows active seniors to stay mobile and independent, yet get medical attention if needed. Other key features include:

Runs on AT&T LTE Network

Nationwide mobile coverage supported by the widely adopted 4G LTE network.

Proprietary Location Detection

The combination of GPS and WiFi provides the fastest and most accurate location service available.

Extended Battery Life

Best in class configuration for check-in and monitoring allows for up to 24 hours of battery life.

Enhanced Fall Detection

An advanced algorithm reliably detects falls; can easily be canceled in case of an accidental trigger to reduce false alarms.

Multiple Language Support

Customizable voice prompts are available in any language.

Vibration Feedback for Hearing & Visually Impaired

Physical challenges won't stop seniors from utilizing the full suite of services.

Text to Locate

This innovation allows caregivers to locate the device with a simple text message.
