

# An Intelligent Motion Detector

Your cameras can  
become a smart  
motion detector.

## What's the PLUS?

Instead of alerts about leaves, shadows and light, receive notifications about people, vehicles or animals.

**Ask about easily  
converting your  
system today.**

## Manage your security, your way.

Turn your cameras into a crime deterrent tool with our new Video Monitoring Pro solution. It seamlessly integrates cameras, analytics and the XR series™ control panels in one platform to create smart motion detectors that trigger panel responses and alarms in real time.

This new smart technology puts the control in your hands to detect and deter intruders, using our 24/7 local monitoring center for immediate dispatch only when needed.

**AUTOMATE YOUR  
SYSTEM TO DETER  
INTRUDERS**

**RECEIVE ONLY  
RELEVANT  
NOTIFICATIONS**

**REDUCE  
POTENTIAL FOR  
FALSE ALARMS**

### REAL EVENTS

- Define where you want to detect activity within a camera's field of view.
- Specify what activity you want to detect - person, vehicle and/or animal.
- Schedule when detection of that activity should trigger a response.

### REAL TIME

- Your cameras become smart motion detectors with the addition of real time analytic monitoring.

### REAL RESPONSE

- Deter intruders and unwanted activity by triggering on-site alarms, lights, and/or talk down devices in response to event detection.

Invest in a video solution that actively works for you.

TURN NEW AND EXISTING CAMERAS INTO INTELLIGENT MONITORING DEVICES

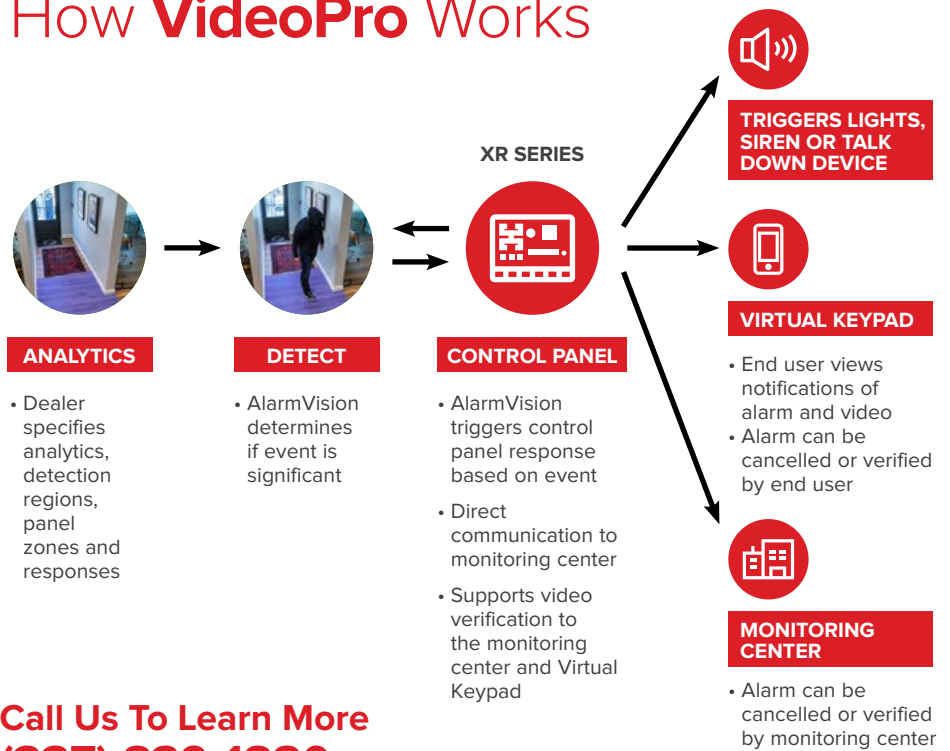

ENSURE PEACE OF MIND, EVEN WHEN YOU'RE NOT ON SITE
