

Professional Protection You Can Trust

**We stand guard
so you don't
have to.**

What's the PLUS?

Reduced false alarms,
and resulting fees, and
the peace of mind that
your property is actively
monitored at all times.

**Ask about
professional video
monitoring today.**

Rapid Response. Fewer False Alarms. That's the PLUS.

It's no surprise why you love having cameras as part of your security system — even when you're not there, you can see what's happening. But what if you're unavailable to view that alarm?

With Video Pro+ our professional and local operators work on your behalf. Upon receiving an alarm, we view your cameras' recorded clips and live views right away — with temporary access to your cameras for a limited time before and after an alarm.

**PROFESSIONALLY
INSTALLED SENSORS
& CAMERAS**

**24/7

RESPONSE**

REAL EVENTS

- Skilled technicians set up your camera and sensor zones to form a fortified perimeter.
- Set up predetermined actions based on the nature of the alarm.

REAL TIME

- Local monitoring center acts as a 'remote eyewitness'
- We determine whether the trigger is a false alarm or immediate dispatch.

REAL RESPONSE

- Verified alarms mean faster response; in fact, priority response is given to alarms that are verified by video.

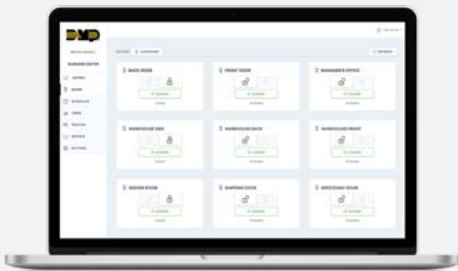

Invest in a video solution that actively works for you.
